Can be worn around the neck or placed in a pocket. Designed to be **easily activated** even by people who have difficulty grasping small objects.

The pendant activates by pressing **red** button or pulling the **"Pull-for-Help"** cord. Water resistant and can be worn **24 hours a day**.

Long-lasting lithium batteries will not need frequent replacement.

**NO
MONITORING
FEES!**

SHORT RANGE:

Ideal for studio size apartments or small homes.

Includes Cordless "Press or Pull For Help" Transmitter

WHEN ACTIVATED... The EC-1 Emergency Caller automatically sounds the alarm and calls to deliver the message for help to:

+ Family or neighbors

+ Emergency services
(local regulations permitting)

+ Health Care Professionals

+ Cellular phones and pagers

'Easy Programming' Display

Listen In Capability

EEPROM Memory

Allows for 2-Way Communication

Remote Turn Off

Battery Backup

'Easy Programming' Display

LCD panel is used to display programming, test, and status information.

EEPROM Memory

Voice message and phone numbers remain stored even after total power failure.

"Listen In" Capability

Called party may "listen in" to voice and other sounds from caller.

2-Way Communication

Called party may initiate 2-way conversation mode.

Remote Turn Off

Called party may deactivate dialer, which

stops any further dialing of other programmed numbers.

Battery Backup (optional)

Battery backup will keep unit fully operational for a minimum of 24 hours during power outages.

Wireless Enunciator (optional)

Gives low/hi alarm sound and flashing strobe. Available option.

Telephone Connection

Plugs directly into phone line. Tone or Pulse. Universal Dial Tone Technology allows use on phone systems worldwide.

GET HELP FAST!

Activate "Pull For Help" transmitter.

The Emergency Caller sends a pre-recorded help message "This is Mary, please send help! I live at . . ."

The called party can activate the 2-way speaker "Don't worry Mary, help is on the way!"

Help Arrives!

Identifying the type of emergency is critical in sending the proper assistance. The Emergency Caller allows for "Listen-In" as well as "2-way Communication" modes. The high sensitivity microphone will allow the listener to hear sounds within the room and to have a speakerphone conversation with the person needing help.

F E A T U R E S

Sends a prerecorded emergency voice message (up to 20 seconds in length) three times to four different numbers. Allows for "listen in" and "2-Way" speakerphone communication mode.

No installation required! Just plug into any standard telephone jack, program the emergency telephone numbers to dial and record voice message in any language requesting help.

Activated by cordless pendant and wireless transmitters
Back up ensures operation even when the power fails.

The Emergency Caller automatically skips to the next number when a busy signal is detected or when telephone is not answered. The Emergency Caller then keeps calling back until message is delivered or The Emergency Caller is deactivated.
